

Your clients' German tax office letters, scanned and explained in English.

Marketplace sellers from outside the EU must name an authorised recipient (Empfangsbevollmächtigter) in Germany when they register for VAT, and the tax office can ask any other non-EU business to do the same. PortoDoc can be that authorised recipient: we scan each letter, and your client gets a notification.

WHO NEEDS IT

- Marketplace sellers from outside the EU with stock in Germany, e.g. Amazon FBA. They must name an authorised recipient with their VAT registration.
- Other non-EU businesses the German tax office asks to name one, e.g. contractors working in Germany.
- Clients from the UK, USA, China, Turkey, Canada, Australia and every other non-EU country.

§ 22f (1) UStG · § 123 AO

WHAT WE DO

- Delivery address for letter post in Ahrensburg near Hamburg, with a personal PD number
- Your clients can name us to the tax office as their authorised recipient
- Every letter scanned, with a notification
- English AI translation in every plan
- Originals kept protected for 90 days
- **From €19.95 a month. No German VAT for companies outside Germany.**

WHY IT COMPLEMENTS YOUR SERVICE

We give no tax advice, file no returns and are not a fiscal representative. Your VAT, launch or logistics work stays yours. We remove one German blocker, and your client keeps working with you.

PARTNER PROGRAMME
